Rice’s Institute of Biosciences and Bioengineering

Presents a Lecture by…

Dr. Syed Shams Yazdani

The International Centre for Genetic Engineering and Biotechnology (ICGEB) in New Delhi, India, is an international organization dedicated to advanced research and training in molecular biology and biotechnology with special regard to the needs of the developing world. Dr. Yazdani is the Group Leader for the Synthetic Biology and Biofuels Group at ICGEB, and leads an effort in developing cost effective processes to produce second generation biofuels. Specifically, his group is isolating novel enzymes with higher specificities towards cellulosic biomass.
